The best under the sun

#### markilux 3300

If you are convinced that an awning cannot be visually merged into its architectural surroundings, the markilux 3300 will prove you wrong. Depending on the structural situation, this designer awning, with its smooth front profile, can disappear completely into a wall or precisely into a recess.

When extended, it comes into its own with dimensions of up to 700 x 400 cm. And you can shade even larger areas by coupling up to three single awnings together. Discover how practical the markilux 3300 can be, and make this awning a big hit in your home.

**Cassette awning**  
max. 700 x 400 cm

**Arm technology**  
Bionic tendon

**Options**  
valance,  
coupled awning
